GENERAL DESCRIPTION OF THE PROJECT AND BACKGROUND ON USER(S) OF THE FACILITY
(Attached additional sheets as necessary)

M/E Engineering - Rochester Location

The proposed acquisition of the 300 Trolley Boulevard location (approximately 22,900 square feet) would house the Rochester operations of M/E Engineering. This location would provide adequate office space for the current 85 employees along with the necessary support spaces, ie. Conference rooms, data rooms, cafeteria, printing and plotting, etc. Additionally, it is anticipated that the building will provide additional space to accommodate growth of approximately 12 people without building modifications. The parking lot currently provides more parking capacity than would be required as it is configure for 106 spaces. Furthermore, the site contains adequate space to allow for a building expansion that could potentially house additional people and the increased parking required. Therefore, this property is ideally suited for the needs of the Rochester operations of M/E Engineering.

Please see attached information on M/E Engineering, P.C.
