II.PROJECT (cont'd)

H. DESCRIPTION OF THE PROJECT AND BACKGROUND ON USER(S) OF THE FACILITY

NAICS Code: 327211

Sydor is currently in a 45,000 sq.ft building but due to growing customer demand, we will need to build a 100,000 square foot building. Not only is the demand growing from our customers, but we're going to purchase some large-format manufacturing machines that would not fit in our current space. Sydor is looking for county assistance, state assistance, and other incentives. We're also building this with a local architecture firm so we don't have another "grey box" facility, but a modern nicely designed facility with a "park" like setting for our employees to enjoy. There will be a pond with a walking track around it, as well as a covered outdoor patio to enjoy during the summer and for company picnics.

Founded in 1964 by Stefan Sydor, a pioneer in the optic field, Sydor Optics has built its reputation on a sound foundation of traditional craftsmanship coupled with gutsy innovation and a strong focus on customer service. Stefan Sydor was known for his passion for optics and innovative solutions. From his work on the Mt. Palomar Observatory's 200-inch telescope mirror, to the world-wide installation of the Baker-Nunn Satellite Tracking Network, Sydor was at the forefront of the optical experts of his generation. Our optics are used in many different industries such as aerospace, military, life sciences, semiconductor, entertainment, telecommunications and all of the high power laser labs around the world including the Omega Laser in Rochester, NY

Sydor Optics recently acquired Vertex Optics, another local optics company that excels in making spherical lenses and assemblies. This acquisition strengths Sydor Optics' portfolio of what can be offered to new and existing customers. When the building is complete Vertex will be moving to 40 Jet View and we will merge into one company.

II.PROJECT (cont'd)

I. Would the project be undertaken without financial assistance from the Agency? ☐Yes ■ No

Please explain why financial assistance is necessary.

COMIDA assistance is needed for this project in order to allow Sydor Optics to move forward with our plans of expanding to the new facility. With this growth, hiring of more employees will be needed in the new facility and to support Sydor's continued growth. The financial assistance will help us make the necessary investments in the facility, equipment, and personnel. Also, as Sydor expands, it will help solidify the Rochester optics community as the "go-to" place in the United States for all things optics and photonics related. COMIDA funding for Sydor will help make this idea a reality. and deliver.

There are US cities that are quickly becoming competitors to Rochester for optics and phtonics needs and that cannot continue to happen. Equipment and scaling are quite expensive so if Rochester cannot compete, Rochester would lose on being number one in the United States, therefore job opportunities and customera would go elsewhere in the US.

J. Are other facilities or related companies located within New York State?

■Yes ☐ No

Location:
31 Jet View Dr. Rochester, NY 14624

Will the Project result in the removal of an industrial or manufacturing plant of the Project occupant from one area of the state to another area of the state? ☐Yes ■ No

Will the Project result in the abandonment of one or more plants or facilities of the Project occupant located within the state?
■Yes ☐ No

If Yes to either question, explain how the Agency's Financial Assistance is required to prevent the Project from relocating out of the State, or is reasonably necessary to preserve the Applicant or User's competitive position in its respective industry:

Sydor needs to expand to a larger facility to accommodate employment growth(13-26ppl in 5 yrs) and new equipment purchases. We plan to lease the current building after relocating.

K. State Environmental Quality Review (SEQR) Act Compliance

COMIDA, in granting assistance to the Applicant, is required to comply with the New York State Environmental Quality Review Act (SEQR).

Does the proposed project require discretionary permit, license or other type of approval by the state or local municipality?

■ YES - Include a copy of any SEQR documents related to this Project including Environmental Assessment Form, Final Determination, Local Municipality Negative Declaration, etc.

☐ NO

VIII. LOCAL LABOR

To be completed by all Applicants and Users/Tenants of Projects which include the construction of new, expanded or renovated facilities:

Company Name 40 Jet View Dr. LLC

Applicant: ☒ **and/or User/Tenant:** ☐

The County of Monroe Industrial Development Agency (IDA) was established for the purpose of creating employment opportunities for, and to promote the general prosperity and economic welfare of the residents of Monroe County. The IDA offers economic incentives and benefits to qualified applicants who wish to locate or expand their businesses or facilities in Monroe County. When the IDA approves a project, it enters into agreements to extend these incentives and benefits to the applicant.

Construction jobs are vital to the overall employment opportunities and economic growth in Monroe County. The IDA believes that companies benefiting from its incentive programs should employ local laborers, mechanics, craft persons, journey workers, equipment operators, truck drivers and apprentices ("construction workers"), during the construction phase of projects.

yes

100% Local Labor
Applicants receiving IDA benefits ***must*** ensure that the it and/or its contractor/developer hire ***100% of its construction workers from the local labor market***.

yes

Local Labor Market
For the purpose of this policy, the local labor market is defined as construction workers residing in the following counties in New York State: Monroe, Genesee, Livingston, Orleans, Ontario, Seneca, Steuben, Wayne, Wyoming and Yates.

yes

Bid Processing
Local participation in qualified projects receiving IDA economic incentives and benefits is vital to the economic growth of Monroe County. As such, all applicants/contractors/developers of a qualified project with a minimum $5,000,000 investment must place any and all invitations to bid in the Builders Exchange of Rochester Plan Room (https://robex.com/planroom/) two weeks before the bids are due.

yes

Monitoring
A third-party auditing firm ("Project Monitor") will be engaged to monitor construction work commencing on the date benefits are granted by resolution of the IDA Board.

Once approved for IDA benefits, all applicants will be required to provide to the Project Monitor and the Exemption Processor (as hereinafter defined) the following information:

1. Contact information for the applicant's representative who will be responsible and accountable for providing information about the bidding and awarding of construction contracts relative to the applicant's project; and

2. Description of the nature of construction jobs created by the project, including in as much detail as possible, the number, type and duration of construction positions.

All Monroe County IDA projects are subject to local monitoring by the IDA and the Project Monitor. Proof of residency or copy of drivers' license shall be checked by the Project Monitor during the Project Monitor's periodic inspection of the project.

The Project Monitor shall issue a report to the IDA staff immediately when an applicant or applicant's contractor is not in compliance with this labor policy. IDA staff shall advise the IDA Board of non-compliance by email or at the next scheduled meeting. If a violation of policy has occurred, the Project Monitor shall notify the applicant and contractor of such non-compliance and give applicant a warning of violation and 72 hours in which to correct such violation. Upon evidence of continued non-compliance or additional violations, the IDA and/or the Project Monitor shall notify the applicant that the project is in violation of the Monroe County IDA Labor Policy and is subject to IDA Board action which may result in the revocation, termination and/or recapture of any or all benefits conferred by the IDA.

Signage

The applicant/contractor/developer of an IDA approved project shall be required to maintain a sign, provided by the Project Monitor, on the project site at all times during construction. This sign shall be located in an area that is accessible to onsite workers and visitors, which should be clear and legible.

yes

Exemption Process

In some instances, use of 100% local labor may not be possible for any of the following reasons:

- Warranty issues related to installation of specialized equipment whereby the manufacturer requires installation by only approved installers (a copy of the equipment warranty confirming the use of specific installers must be provided). The granting of an exemption for the use of non-local labor on warranty related grounds is expressly conditioned on either (i) said non-local sub-contractors being enrolled in a New York State certified apprenticeship program (proof of such enrollment shall be provided to the IDA upon request) or (ii) the hiring of an apprentice/apprentices or local construction laborer(s) to assist in the installation.

- Specialized construction is required and no local contractors or local construction workers have the required skills, certifications or training to perform the work (proof of communication with local contractors, or details of the specialized construction must be provided);

- Significant cost differentials in bids whereby use of local labor significantly increases the cost of the project. Three (3) bids are required and a cost differential of 25% is deemed significant. Where there is a significant cost differential, that if the local labor contractor agrees to reduce the bid to the average of the two bids, no waiver will be granted. However, if the average is still 25% or more, a waiver will be granted (copies of all bids/proposals received, including pricing, must be provided to confirm cost differential).

- No local labor available for the project (if local bids were solicited with no response, please provide a copy of the bid, explain how it was advertised, and list who the bids were requested from).

The request to secure an exemption ***for the use of non-local labor must be received from the applicant on the exemption form provided by the IDA or the 3rd party exemption monitor (the "Exemption Processor") and received by the Exemption Process forty-five (45) days in advance of work commencing***. The request will be reviewed by the Exemption Processor and forwarded to the IDA, at which time the IDA's Executive Director shall have the authority to approve or disapprove the exemption. The Exemption Processor shall report each authorized exemption to the Board of Directors at its monthly meeting.

The applicant has read the Labor Policy and agrees to adhere to it without changes and shall require its construction manager, general contractor and sub-contractors who are not exempt to acknowledge the same.

The foregoing terms have been read, reviewed and understood by the Applicant or User/Tenant and all appropriate personnel. Furthermore, the undersigned agrees and understands that the information contained herein must be transmitted and conveyed in a timely fashion to all applicable subcontractors, suppliers and materialman. Furthermore, the undersigned agrees to post and maintain a sign, provided by COMIDA, in a prominent, easily accessible location, identifying the project as a recipient of COMIDA assistance and the local labor requirements associated with this assistance.

Furthermore, the undersigned realizes that failure to abide by the terms herein could result in COMIDA revoking all or any portion of benefits it deems reasonable in its sole discretion for any violation hereof.
