DESCRIPTION OF THE PROJECT AND BACKGROUND ON USER(S) OF THE FACILITY

NAICS Code: 531120

222 South Ave is located at the corner South Avenue and Capron Street in the Central Business District. It is the last building in the area that has not been renovated. Upon completion of the renovation, this area will be completed in its diverse nature. Located across the highway from the newly finished skate park, this building will compliment the existing residential and commercial businesses. The building will bring in 2 existing businesses to reside on the 3rd floor (totaling 8 employees with 2 future) and 2 new future businesses to reside on the 1st floor, as well as 2 residential tenant dwellings to reside on the 2nd floor.

The building will be converted into 2 commercial floors and 1 residential floor. The first floor will have 2 future commercial tenants and the second floor will have 2-4 tenants in the apartments. The third floor will have 2 commercial tenants with 8-10 employees total.

The overall footprint of the building is approximately 7,300 sf. Of this, about 63% is commercial, 32% is residential, and the remainder is common space. The basement has an additional 1,000 sf of storage space.

G. Would the project be undertaken without financial assistance from the Agency?

☐ Yes  ✔ No

Please explain why financial assistance is necessary.

The total project hard and soft costs are estimated at approximately $1.1M. Funding sources include; investor capital, proposed grants, and bank and business development financing. The total capital required for the project is greater than the estimated appraised value of the building at completion (due to excessively deferred structural, masonry, roofing, windows, mechanical, and ADA accessibility capital requirements). As such, COMIDA and other incentives are critical to the success and viability of this project.
