H. DESCRIPTION OF THE PROJECT AND BACKGROUND ON USER(S) OF THE FACILITY

NAICS Code: **311412**

Project Andiamo, which means "Let's Go" in Italian, intends to invest \$3.51 million over a two-year period to increase production, freezing, processing, and storage capacity at the Rochester facility. In Year 1, the Company plans to upgrade the plant's freezing systems to improve efficiency, achieve lower freezing temperatures, and increase product throughput. The project will also include improvements to holding and storage facilities. Additional dough-mixing equipment will be added to increase production volume and provide redundancy for backup capacity. With improved mixing and processing capabilities, the plant will also need expanded proofing systems and additional oven capacity of approximately 30% to 35% to handle the increased processing volume. Refrigeration system upgrades will further improve freezing throughput and operational efficiency. In Year 2, the Company plans to add a larger dough-sheeting and processing line. This addition will significantly increase plant capacity and allow the Company to fully benefit from the Year 1 investments in freezing, mixing, proofing, oven, refrigeration, and storage systems. State, County, and City support are critical to advancing this project in Rochester. The machinery and equipment contemplated for this investment are transferable to another location, making public-sector assistance an important factor in supporting the Company's continued investment, production growth, and job creation in the Rochester market.

Pane Vita Foods, LLC is a manufacturer of premium specialty breads, stuffed bread products, a line of fully enrobed dough products, as well as a line of premium fully prepared quesadilla products. Pane Vita provides product to some of the nation's leading food service, retail supermarket, and club store operators throughout the United States, Canada, and Mexico.

Pane Vita products are packaged for sale into the retail and food service channels such as supermarkets, club stores, convenience stores, restaurants and pizza chains, and QSR operators. These products are produced fresh, IQF frozen, and shipped directly through our national distribution channels.

The Company occupies a 58,000 square foot USDA manufacturing facility in Rochester, New York. The facility is equipped with state of the art European dough processing, baking, freezing, and packaging equipment that allows Pane Vita sufficient capacity to service our customers and allow for future growth. The equipment is configured to produce consistent quality products at high volumes in order to meet our customers' demand at competitive prices.

Pane Vita's management is a team of experienced industry professionals that have decades of experience developing, manufacturing, and marketing upscale pizza, stuffed bread, and frozen bakery products nationwide. The plant is under USDA inspection, employs an active HACCP Plan and operates under the strict guidelines of the SQF level 2 (Safe Quality Food) food safety program protocol with third party audits.

Our programs and products offer a proven formula for success – state-of-the-art proprietary equipment, a complete line of premium products, and a comprehensive support program that will insure continued long-term mutually rewarding sales and profits to your program.

VIII. LOCAL LABOR

To be completed by all Applicants and Users/Tenants of Projects which include the construction of new, expanded or renovated facilities:

Company Name Pane Vita, LLC

Applicant: ☒ **and/or User/Tenant:** ☐

The County of Monroe Industrial Development Agency (IDA) was established for the purpose of creating employment opportunities for, and to promote the general prosperity and economic welfare of the residents of Monroe County. The IDA offers economic incentives and benefits to qualified applicants who wish to locate or expand their businesses or facilities in Monroe County. When the IDA approves a project, it enters into agreements to extend these incentives and benefits to the applicant.

Construction jobs are vital to the overall employment opportunities and economic growth in Monroe County. The IDA believes that companies benefiting from its incentive programs should employ local laborers, mechanics, craft persons, journey workers, equipment operators, truck drivers and apprentices ("construction workers"), during the construction phase of projects.

X

100% Local Labor

Applicants receiving IDA benefits **must** ensure that the it and/or its contractor/developer hire **100% of its construction workers from the local labor market.**

X

Local Labor Market

For the purpose of this policy, the local labor market is defined as construction workers residing in the following counties in New York State: Monroe, Genesee, Livingston, Orleans, Ontario, Seneca, Steuben, Wayne, Wyoming and Yates.

X

Bid Processing

Local participation in qualified projects receiving IDA economic incentives and benefits is vital to the economic growth of Monroe County. As such, all applicants/contractors/developers of a qualified project with a minimum \$5,000,000 investment must place any and all invitations to bid in the Builders Exchange of Rochester Plan Room (<https://robex.com/planroom/>) two weeks before the bids are due.

X

Monitoring

A third-party auditing firm ("Project Monitor") will be engaged to monitor construction work commencing on the date benefits are granted by resolution of the IDA Board.

Once approved for IDA benefits, all applicants will be required to provide to the Project Monitor and the Exemption Processor (as hereinafter defined) the following information:

1. Contact information for the applicant's representative who will be responsible and accountable for providing information about the bidding and awarding of construction contracts relative to the applicant's project; and
2. Description of the nature of construction jobs created by the project, including in as much detail as possible, the number, type and duration of construction positions.

All Monroe County IDA projects are subject to local monitoring by the IDA and the Project Monitor. Proof of residency or copy of drivers' license shall be checked by the Project Monitor during the Project Monitor's periodic inspection of the project.

The Project Monitor shall issue a report to the IDA staff immediately when an applicant or applicant's contractor is not in compliance with this labor policy. IDA staff shall advise the IDA Board of non-compliance by email or at the next scheduled meeting. If a violation of policy has occurred, the Project Monitor shall notify the applicant and contractor of such non-compliance and give applicant a warning of violation and 72 hours in which to correct such violation. Upon evidence of continued non-compliance or additional violations, the IDA and/or the Project Monitor shall notify the applicant that the project is in violation of the Monroe County IDA Labor Policy and is subject to IDA Board action which may result in the revocation, termination and/or recapture of any or all benefits conferred by the IDA.

X

Signage

The applicant/contractor/developer of an IDA approved project shall be required to maintain a sign, provided by the Project Monitor, on the project site at all times during construction. This sign shall be located in an area that is accessible to onsite workers and visitors, which should be clear and legible.

X

Exemption Process

In some instances, use of 100% local labor may not be possible for any of the following reasons:

- Warranty issues related to installation of specialized equipment whereby the manufacturer requires installation by only approved installers (a copy of the equipment warranty confirming the use of specific installers must be provided). The granting of an exemption for the use of non-local labor on warranty related grounds is expressly conditioned on either (i) said non-local sub-contractors being enrolled in a New York State certified apprenticeship program (proof of such enrollment shall be provided to the IDA upon request) or (ii) the hiring of an apprentice/apprentices or local construction laborer(s) to assist in the installation.
- Specialized construction is required and no local contractors or local construction workers have the required skills, certifications or training to perform the work (proof of communication with local contractors, or details of the specialized construction must be provided);
- Significant cost differentials in bids whereby use of local labor significantly increases the cost of the project. Three (3) bids are required and a cost differential of 25% is deemed significant. Where there is a significant cost differential, that if the local labor contractor agrees to reduce the bid to the average of the two bids, no waiver will be granted. However, if the average is still 25% or more, a waiver will be granted (copies of all bids/proposals received, including pricing, must be provided to confirm cost differential).
- No local labor available for the project (if local bids were solicited with no response, please provide a copy of the bid, explain how it was advertised, and list who the bids were requested from).

The request to secure an exemption for the use of non-local labor must be received from the applicant on the exemption form provided by the IDA or the 3rd party exemption monitor (the "Exemption Processor") and received by the Exemption Process forty-five (45) days in advance of work commencing. The request will be reviewed by the Exemption Processor and forwarded to the IDA, at which time the IDA's Executive Director shall have the authority to approve or disapprove the exemption. The Exemption Processor shall report each authorized exemption to the Board of Directors at its monthly meeting.

The applicant has read the Labor Policy and agrees to adhere to it without changes and shall require its construction manager, general contractor and sub-contractors who are not exempt to acknowledge the same.

The foregoing terms have been read, reviewed and understood by the Applicant or User/Tenant and all appropriate personnel. Furthermore, the undersigned agrees and understands that the information contained herein must be transmitted and conveyed in a timely fashion to all applicable subcontractors, suppliers and materialman. Furthermore, the undersigned agrees to post and maintain a sign, provided by COMIDA, in a prominent, easily accessible location, identifying the project as a recipient of COMIDA assistance and the local labor requirements associated with this assistance.

Furthermore, the undersigned realizes that failure to abide by the terms herein could result in COMIDA revoking all or any portion of benefits it deems reasonable in its sole discretion for any violation hereof.
